How I Can Help VURT Succeed.

Dioni Vasquez

March 2026

TRACK RECORD

20 Years Building at the Intersection.

$750M+

Campaign revenue driven across Meta, HBO, AmEx, Walmart, Cadillac, Starbucks

5M+

Subscribers built from zero. Brat TV + Snapchat Originals.

500M+

Views on creator-first content engines.

50–60%

Cost reduction. Planet Fitness. 16 agencies consolidated.

20%

Sales lift. Cadillac XT6 launch with Spike Lee.

Oscar

Nominated. Emmy, Peabody, BAFTA, Cannes Lions winner.

OBSERVATIONS

What I See at VURT.

01 The content moat is real.

02 The business model may be a second moat.

03 Audience skew shows what's working and what's missing.

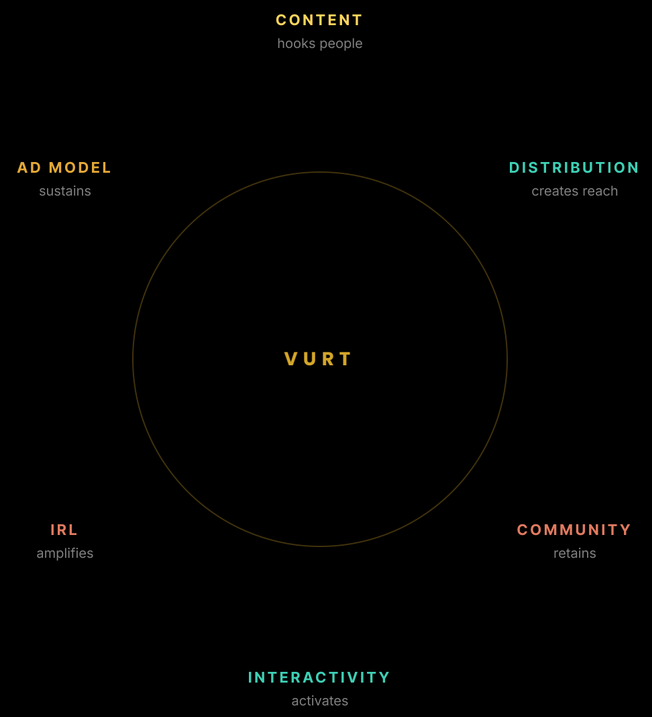
04 The conflict-resolution format is algorithmically powerful.

05 Distribution is the business.

06 IRL amplifies everything.

THE SYSTEM

These Connect as a Flywheel.



WHERE I CAN HELP

Turning Content Into Distribution.

THE MACHINE

Episodes become clips. Clips become reach. Reach becomes installs. It's a buildable, repeatable system.

> **Proof.** Built Brat TV from zero to 5M+ subscribers, 500M+ views. Creator-first model: cast the creator, build the show, clip everything for distribution.

THE GAP

- No microdrama platform uses clippers or content creators for distribution.
- They're all running paid acquisition ($20-30 CPI).
- Zero organic discovery strategy across the category.
- VURT can be first.

WHERE I CAN HELP

Production Expertise. Applied Differently.

TASTE

Knowing what works, what resonates, what to cut and what to keep. That sensibility applied to content selection, format development, and quality control is a force multiplier.

SYSTEMS

Planet Fitness: 16 fragmented agencies consolidated into one pipeline. $500K+ annual savings. That operational thinking applied to VURT's production pipeline.

WHERE I CAN HELP

Building Community That Retains.

THE PROBLEM

Every microdrama competitor is a slot machine. Zero community. Zero fandom infrastructure. Zero reason to feel like you belong.

WHAT I'VE BUILT

- SagaDAO: real community with governance, elections, published charter.
- Daily active Discord, watch parties, AMAs, fan voting.
- Frameworks that translate: fan theory channels, superfan programs, audience voting on pilots.

WHERE I CAN HELP

Connecting Creators to the Platform.

THE NETWORK

20 years of entertainment relationships. Creator managers, directors, producers, agents at every level. Not a cold email. A warm introduction backed by a body of work.

THE LEVERS

- Creative freedom studios won't offer.
- Speed-to-screen.
- IP ownership terms.
- Being early to a platform that gives artists a real home.
- Every creator who joins brings their audience.

WHERE I CAN HELP

IRL Amplification.

SagaDAO House: Abu Dhabi, NYC, Miami, LA, Art Basel, Key West. Proof of concept already built and operated.

- Directors and creators with competing shows living together for a week. The rivalry alone is content.
- Cast members from different series meeting for the first time on camera, debating whose show is better.
- Live watch party. Audience votes in real-time. Results revealed on-stream.
- Pop-up confessional booth. Fans give unfiltered takes on a cliffhanger. 30-second TikTok fuel.
- Superfans getting cast in a cameo. Behind-the-scenes becomes its own content arc.

WHERE I CAN HELP

Bringing Interactivity to Microdrama.

TWITCH	REELSHORT	POLYMARKET	TIKTOK
Predictions	Micropayments	Prediction markets	Virtual gifts
No produced content	No interaction	No entertainment	No community

Nobody has combined them. Start lightweight — polls, predictions, fan theories. Incentivize participation — early access, shoutouts, leaderboards, exclusive drops. Let the data tell you what to invest in next.

WHY THIS MATTERS

Not Five Hires. One System.

SOCIAL MEDIA
Can post clips.

COMMUNITY MGR
Can run a Discord.

PRODUCER
Can make content.

BIZ DEV
Can sign deals.

EVENTS LEAD
Can run activations.

THE INTERSECTION
Sees how they connect. Builds the system that makes them compound.

NEXT STEPS

The thinking is underway. The vision is aligned.

Operational playbook drafted. Interactive entertainment research compiled. Competitive landscape mapped. **Preliminary work with strong ideas to go through together.**

Let's talk about how to make it real.
